W. H. BURKLEY, Chairman.  
C. A. DAY, Secretary.

On the question of fusion there are many populists, as well as popocrats, who do not know where they are at.

It may be a "reflection on the dignity of the court" to state that the man on the bench is a democrat and frequently acts like one, but we never supposed a democrat would admit it.

LAWYER ARBUCKLE in an interview states that he is an "unflinching advocate of bimetalism." Less than two years ago he was talking free and unlimited coinage of silver at the ratio of 16 to 1, in accordance with the Chicago platform as "bimetalism" was not mentioned in that document. Incidentally he says that the county committee should be reorganized before March 12 in accordance with the state committee, but on this question he has to oppose him that democrat of democrats, that leader of leaders, D. H. Lubker, of Brownstown, the hold over chairman of the Jackson county democracy Mr. Arbuckle further states that he is in favor of union with a big "U."

POLITICAL BREVITIES.

Commissioner Buhner it is said will have W. H. Thomas, of Crothersville, as a candidate to oppose him for re-nomination.

Some of the Third ward democrats held a conference at a private residence there yesterday. One who was there is really more interested in county politics than city politics.

R. F. White, candidate for city marshal, states that if he is nominated and elected he will give his full time to the duties of that important office. His coal and ice business would be turned over to his son who would have complete charge of it.

The democrat would like to leave the impression that Dr. L. M. Mains is ready to withdraw from the race for mayor. The democrat will learn to its own satisfaction later on that Dr. Mains is in the race to stay, and if nominated on March 8, will be elected the next Mayor of Seymour by a substantial majority.

How a Chameleon Changes Color.

The chameleon is a little lizard who possesses the wonderful power of changing his color to suit his own convenience. Florida produces several species of these lizards in abundance. This is the process by which the little lizard effects his changes:

Certain colors through the medium of the optic nerve produce a contraction or expansion of the pigment or color cells. The result is a protective tint or one which resembles that upon which the animal is resting. The eye receives the stimulus or impression, which passes from the optic nerve to the sympathetic nerve, so reaching the various series of the lizard's little color cells under the skin.

The pigment cells are distributed all over the body with more or less regularity, and upon their contraction and expansion depends the prevailing color of the animal.

The scientist discovered this by blind-folding a lizard and found that when it could not see the color of the surrounding foliage it ceased to change its own color.—St. Louis Republic.

Lincoln's Maul.

In the show window of the Times office can be seen the bench maul with which Abe Lincoln, when a boy, split the rails that fenced in the home of his parents in Spencer county, near Lincoln City. The maul now belongs to Dr. Bezzell of Clifford. Thos. Lincoln, Abe's father, gave it to Dr. Bezzell's father when they lived neighbors in Illinois, soon after they moved away from Indiana, a long about the early twenties. The maul is just as left when Abe used it, handle and all. Lincoln afterward became president of the United States. The maul is a rare old relic and is highly prized by its owner.—Columbus Times.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out and nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at W. ## EARLY ADJOURNMENT

Efforts Being Made to That End by House Leaders.

## SESSION LIKELY TO END IN MAY

Only Three of the Regular Appropriation Bills Remain in Committee. Leaders of Both Sides Looking Forward to an Early Close of Their Work—Postmasters.

Washington, Feb. 28.—The house leaders have been straining all their energies to expedite the appropriation bills with a view to an early final adjournment and they are succeeding beyond their most sanguine expectations. Not in a quarter of a century have the appropriation bills been so far advanced in the long session as they are at this time. Only three of the 13 regular bills remain in committee. The other 10 have gone through one or more legislative stages and one—the military academy—is in the hands of the president awaiting his signature. The condition of the other nine bills is as follows:

The pension bill has passed both houses and the differences have been agreed upon in conference.

The legislative, executive and judicial, the army, the fortifications and the agricultural bills have passed both houses and the differences are being adjusted in conference.

The senate amendments to the diplomatic and consular bill have been agreed upon by the house committee on foreign affairs, and the bill only awaits confirmation of this action by the house before going to the president.

The Indian bill has passed the senate and the amendments placed on the bill there are being considered by the house committee.

The District of Columbia bill, which has passed the house, is still in the senate committee, and the sundry civil bill will probably pass the house today.

Awaiting Contingent Developments.

Of the three bills still unreported to the house, both the naval and postoffice await contingent developments before they can be completed. The naval bill is practically complete save for the provisions for drydocks and new ships. On both these propositions the developments of the next few days are expected to control the action of the committee.

If the board of inquiry into the Maine disaster should render a finding which portends strained relations with Spain, the most liberal provision will be made both for drydocks and ships. If the disaster was not due to accidental causes aboard ship it is almost certain that two new battleships will be provided—one recommended by the secretary of the navy and one to replace the Maine—and that at least one of the new drydocks recommended will be authorized.

In case the Maine disaster is found to have been caused by accident it is probable no provision for battleships will be made in the new bill.

The completion of the postoffice bill depends upon the action of the house upon the Land bill relating to second class mail matter, which is to be acted upon this week.

The general deficiency bill is always the last of the bills to be reported as it includes such deficiencies and other items as must be provided for at the close of every session.

With the appropriation bills and the immigration bill, the consideration of which has been set for March 15, out of the way, nothing remains to prolong this session of congress save the question of the annexation of Hawaii or war.

The leaders of both sides, looking ahead, eliminating both these subjects as probabilities or possibilities of delay, agree that the appropriation bills should be passed and that congress should be ready to adjourn early in May. If such a contingency as war should arise it would be necessary for congress to act both in the formal declaration of war and in furnishing ways and means for its prosecution. With regards to Hawaiian annexation there is no doubt that if the present treaty is abandoned in the senate no move for annexation by legislative enactment will be initiated by the house.

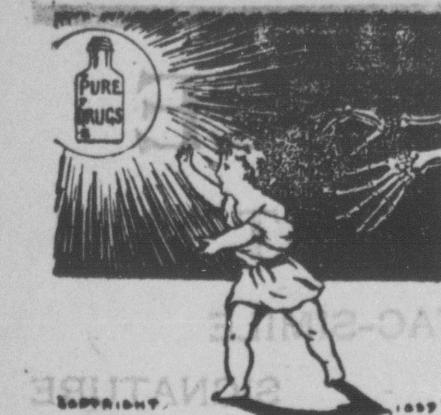

Pensions Granted.

Washington, Feb. 28.—Pensions have been granted to the following Indians: Original—George Ager, National Military home, Grant, \$8; Thomas L. Smith, Medaryville, \$6; Samuel B. Byers, Talbot, \$12; Corvando A. Beaman, Hatches Mills, \$6; Stephen A. Burrower, Fort Wayne, \$8; James B. Prewitt, Jeffersonville, \$6. Increase—Henry C. Ellis, Bloomington, \$10 to \$17; Daniel Beaver, Indianapolis, \$6 to \$8. Original Widows, Etc.—Sarah Snodgrass, New Palestine, \$8.

Indiana Postmasters.

Washington, Feb. 28.—Indiana postmasters have been appointed as follows: Earnest, Eva Troxell; Oliver, William W. Hoggatt; Standal, Charles H. Katter.

### A REDUCTION ALL ALONG THE LINE.

The success that we have met with in reducing the price of our cabinet photographs to one dollar per dozen has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printout paper, and tone in the same kind of gold and artist platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

### Birthday Anniversary.

Fifty-three years ago last Saturday Mrs. Mary Klein, who resides on Brown street, first opened her eyes to this country, and her friends and neighbors to the number of about seventy-five went to her home Saturday night to remind her of the fact.

She received several nice presents among them was a nice set of china-ware. Refreshments in abundance were served and the crowd was entertained with choice music, songs and witticisms until a late hour. The most interesting part of the music was a young lady whistler. She bids fair to become famous as a whistler. At a late hour the crowd dispersed all feeling happy and wishing Mrs. Klein many more such happy occasions.

### A REDUCTION ALL AMONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen has determined us to continue for thirty or sixty days longer, making cabinets on glass paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printing-out paper, and tone in the same kind of gold and artist platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet glass cabinet at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

April Conference for Ministers and Christian Workers.

The Third Annual Conference for Ministers and Christian Workers will hold its sessions in Chicago, at the Bible Institute, throughout the month of April.

In the past those in attendance were from as far west as the Dakotas and Texas, and as far east as New Brunswick. It is expected that all sections of the Union will be represented this year.

It is interesting to note how the conference appeals to Christian interest everywhere, and how widespread the interest is.

The indications are that the attendance will be much larger this year than ever before, and great as the past blessings have been, even greater ones are expected from our Heavenly Father and His Son Jesus Christ and the Holy Spirit. Anyone contemplating attendance can write Moody or R. A. Torrey, 80 Institute Place, Chicago.

Everybody says so. Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain, nerve, courage, endurance, energy, increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

## ONCE THEY WERE MEDIUMS.

Now They Expel Their Sins by Tossing Balls of Blue Fire.

Close by the Northwestern tracks at Leavitt street is the home of the "juggling sisters." They were twin prestidigitators in their days of life, so run the tradition, and now they toss balls of blue fire about as the juggler does eggs, cannon balls and the like. Their pet amusement is to stand on their heads and toss the balls as if they were standing aloft. The force of gravity seems to be reversed for their benefit, for they "toss" the balls of fire down, and the little flames "fall" up. All this is set down just as James MacCourtney, the oldest settler in the neighborhood, tells it. He said the other day:

"Them broad windy over there on the north side of the old building is the place where the sisters comes to show themselves. The year of the World's fair I counted up their performances, and they come every 56 days. The reason for that is something I could never guess, but some smart young chap here figured out that it was always in the dark of the moon. I've noticed since that there never was no moonlight when they got up there in the windy."

"What's the cause of their haunting the old place? Why, sir, the story's so old there can't no truth nor lie be made out on it. There's no man in these diggin's longer'n I be, an' I ken the story only by hearsay, so to speak. I heard it from my granddaddy, an' he said he heard it when he was a young man comin' here. That mus' 'a' ben in the thirties. Onnyways he said that the two sisters was persidigitators. It seems like they give a performance in the house, which was new then in course, an' the pair of them agreed ter be locked up in a box that was to be sealed an' fastened, an' then they was to get out without breakin' the seals. Well, they was locked up, but they couldn't get out, an' shortly soon they foun' themselves so short of breath they couldn't holler loud enough to be heard. In course they was in a room away from the other people, so's the common folk couldn't see how the trick was turned. When they couldn't holler, they tried rapping, an' the others only thought they was a-wor-kin' out of the box an' so didn't pay attention. After an hour or so the other peoples got nervous an' went in an' opened the box, an' there was the two sisters, cold dead. They buried 'em together in the box in the yard back of the house, an' that's why they juggle the fire balls upside down like."—Chicago Chronicle.

## DIPLOMATIC AUCTIONS.

Eric-a-brac Fargains Fagerly Bought at the Shrine of the Red Flag.

There is a graceful custom among foreign diplomats at the capital that we may as well trench upon. I refer to the auction sale which frequently befalls on the occasion of the recall of one of our alien ambassadors or ministers.

For two weeks before their excellencies decamp the local papers revel in a long and lurid "ad." recounting the recall of the ambassador or minister and declaring how on a certain day all people so minded are invited to appear and contest at public vendue for a dazzling list of plunder in said "ad." set forth.

Prime among the properties for sale you will notice wines and many a thing besides that are as articles of commerce highly tarified. But in these cases courtesy has held the tariff at bay. All of a legation's wines and cigars and furniture—in fact, everything of a personal sort that a legation causes to be brought to America—is passed scot free at our customs. One will readily discern that a ripe profit might be made to roll pleasantly up at one of these untarified legation sales. Our own tradespeople must, however, pay the fiddler in each notable instance.

At these sales snobdom turns stouly out. The bidding is hot and fast and high. There is nothing so lusted for by a certain sort of American, cringingly numerous hereabout, as a wine which has been justified by an ambassador's taste, or a piece of furniture or bric-a-brac which has been soiled by noble and titled contact. And, therefore, these legation auctions furnish the most heated bid combats. And many a fool is felled.

It is also to be remarked that these sales string out in endless fashion, day following day, as fools flock to be bucked. The stock, whether of wine or furniture or cast off noble garments, never runs low. The widow's store of oil showed no better staying powers.

As slow as custom hangs about the chatters about, the red flag floats and the stock of goods to be disposed of flows by with current unabated.

For, mark you, rather than disappoint or send any full hearted alien chaser away from this sale with aching heart and empty hands the auctioneer each night moves in a new stock to replace the disappearances of the day before. Each morning the legation rooms are as unstripped, the cabinets as full of bric-a-brac, the bins as replete with rare old wines as at the beginning.

Thus it runs forward until no more sheep appear to be shorn and even the toddlers have enough. Then the flag comes down and the legation sale is at an end.—New York Journal.

## FOR AN OCEAN VOYAGE.

Take Only Half the Clothes You Think You Will Need.

"Take only half the clothing that you think you will need for an ocean voyage and do not attempt to have a small trunk in your stateroom," writes Emma M. Hooper in The Ladies' Home Journal. "Have in your largest shawl strap a traveling rug, heavy wrap—a golf cape is excellent—sun umbrella, rubbers, small cushion to tie on the back of your deck chair, a warm dress of plain design, and a flannel wrapper to use as a nightgown. Wear a chambray pocket well secured with a tape about the waist for your letter of credit, jewelry, money, etc."

"In a large traveling bag place a change of underwear, hose, bedroom slippers and needed toilet articles, with which include a small hot water bag, bottle of salts, vasoline, box of cathartic pills and bottle of camphor. Do not forget a comfortable cloth steamer cap and a gauze veil if you are afraid of a little sunburn. Wear a jacket suit of mixed cheviot or serge and a silk waist on board. After starting put on the old gown and lounge in it until you land, when it can be given to a stewardess. Some travelers try to dress for dinner and carry a steamer trunk filled with silk waists and fancy neckwear, but for an eight day journey this is poor taste and a lot of trouble. Others have the small trunk in the cabin, and before landing pack the things in it that are to be used only on the return voyage, and send it to the ship company's office until their return. It must be remembered that 30 pounds of baggage is the average weight allowed free on the continent. Warm wraps and woolen underwear are necessary at all seasons going across the Atlantic."

## ONE OF TWO WAYS.

The bladder was created for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the woman, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its pertinence of this offer.

## THE AMERICAN MONTHLY

### REVIEW REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings, which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five contents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

April Conference for Ministers and Christian Workers.

The Third Annual Conference for Ministers and Christian Workers will hold its sessions in Chicago, at the Bible Institute, throughout the month of April.

In the past those in attendance were from as far west as the Dakotas and Texas, and as far east as New Brunswick. It is expected that all sections of the Union will be represented this year.

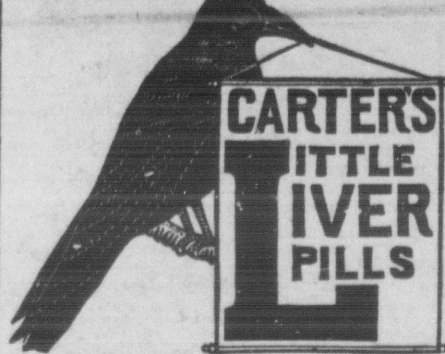

It is interesting to note how the conference appeals to Christian interest everywhere, and how widespread the interest is.

The indications are that the attendance will be much larger this year than ever before, and great as the past blessings have been, even greater ones are expected from our Heavenly Father and His Son Jesus Christ and the Holy Spirit. Anyone contemplating attendance can write Moody or R. A. Turley, 80 Institute Place, Chicago.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain fire, courage, endurance, energy increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

## ONCE THEY WERE MEDIUMS.

Now They Expiate Their Sins by Tossing Balls of Blue Fire.

Gloss by the Northwestern tracks at Leavitt street is the home of the "juggling sisters." They were twin prestidigitators in their days of life, so runs the tradition, and now they toss balls of blue fire about as the juggler does eggs, cannon balls and the like. Their pet amusement is to stand on their heads and toss the balls as if they were standing aloft. The force of gravity seems to be reversed for their benefit, for they "toss" the balls of fire down, and the little flames "fall" up. All this is set down just as James MacCourtney, the oldest settler in the neighborhood, tells it. He said the other day:

"Them broad windy over there on the north side of the old building is the place where the sisters come to show themselves. The year of the World's fair I counted up their performances, and they come every 56 days. The reason for that is something I could never guess, but some smart young chap here figured out that it was always in the dark of the moon. I've noticed since that there never was no moonlight when they got up there in the windy.

"What's the cause of their haunting the old place? Why, sir, the story's so old there can't no truth nor lie be made out on it. There's no man in these diggins longer than I be, an' I ken the story only by hearsay, so to speak. I heard it from my granddaddy, an' he said he heard it when he was a young man comin' here. That morn' 'a' ben in the thirties. Onnyways he said that the two sisters was persidigitators. It seems like they give a performance in the house, which was new then in course, an' the pair of them agreed ter be locked up in a box that was to be sealed an' fastened, an' then they was to get out without breakin' the seals. Well, they was locked up, but they couldn't get out, an' purty soon they found themselves so short of breath they couldn't holler loud enough to be heard. In course they was in a room away from the other people, so's the common folk couldn't see how the trick was turned. When they couldn't holler, they tried rapping, an' the others only thought they was a workin' out of the box an' so didn't pay attention. After an hour or so the other peoples got nery, an' went in an' opened the box, an' there was in the two sisters, cold dead. They buried 'em together in the box in the yard back of the house, an' that's why they juggles the fire balls upside down like."—Chicago Chronicle.

They Are Friends. Helen—I wonder why Kate doesn't mind her own business. Mattie—She hasn't any. Helen—Business? Mattie—No; mind.—Chicago News.

Took a Severe Cold After the Big Fire. After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help; the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. Henderson, editor Daily Advertiser, Cripple Creek, Colo. Sold by C. W. Milhous.

## DIPLOMATIC AUCTIONS.

Eric-a-brac Vargates Fiercely Bought at the Shrine of the Red Flag.

There is a graceful custom among foreign diplomats at the capital that we may as well trench upon. I refer to the auction sale which frequently befalls on the occasion of the recall of one of our alien ambassadors or ministers.

For two weeks before their excellencies decamp the local papers revel in a long and lurid "ad." recounting the recall of the ambassador or minister and declaring how on a certain day all people so minded are invited to appear and contest at public vendue for a dazzling list of plunder in said "ad." set forth.

Prime among the properties for sale you will notice wines and many a thing besides that are as articles of commerce highly prized. But in these cases courtesy has held the tariff at bay. All of a legation's wines and cigars and furniture—in fact, everything of a personal sort that a legation causes to be brought to America—is passed scot free at our customs. One will readily discern that a ripe profit might be made to roll pleasantly up at one of these untariffed legation sales. Our own tradespeople no doubt, however, pay the fiddler in each notable instance.

At these sales snobdom turns stonily out. The bidding is hot and fast and high. There is nothing so lusted for by a certain sort of American, cringingly numerous hereabout, as a wine which has been justified by an ambassador's taste, or a piece of furniture or bric-a-brac which has been soiled by noble and titled contact. And, therefore, these legation auctions furnish the most heated bid combats. And many a fool is felled.

It is also to be remarked that these sales string out in endless fashion, day following day, as flocks flock to be hooked. The stock, whether of wine or furniture or cast off noble garments, never runs low. The widow's store of oil showed no better staying powers. As long as custom hangs about the chatters about, the red flag floats and the stock of goods to be disposed of flows by with current unabated.

For, mark you, rather than disappoint or send any full hearted alien chaser away from this sale with aching heart and empty hands the auctioneer each night moves in a new stock to replace the disappearances of the day before. Each morning the legation rooms are as unstripped, the cabinets as full of bric-a-brac, the bins as replete with rare old wines as at the beginning.

Thus it runs forward until no more shew appear to be shorn and even the toadies have enough. Then the flag comes down and the legation sale is at an end.—New York Journal.

Restored to Health by Dr. Miles' Nervine.

**M**R. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Braceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

WILLIAM M. SINGERLY.

Proprietor of the Philadelphia Record Passes Away Suddenly.

Philadelphia, Feb. 28.—William M. Singerly died suddenly at his residence here yesterday afternoon. Heart disease was the immediate cause of death. Mr. Singerly had been suffering for about 10 days from a cold and had remained at home since last Wednesday, although his indisposition was thought to be in no way serious. While sitting in his bedroom smoking a cigar he was

WILLIAM M. SINGERLY.

seized with a violent fit of coughing and immediately afterward fell over dead.

The physicians say they had frequently cautioned Mr. Singerly that his heart was weak, as a result of excessive smoking, and of late his custom was to take a "dry smoke." Yesterday, however, his cigar was lighted, and it is thought that the smoke brought on the coughing spell, the severity of which ruptured a blood vessel of the heart.

William M. Singerly was proprietor of the Record Publishing company, president of the Chestnut Street National Bank and the Chestnut Street Savings Fund and Trust company, which recently collapsed, and president of the Singery pulp and paper mill. He was a member of the Fairmount park commission and until lately the treasurer and a trustee of the Philadelphia Commercial museum.

He was born in this city Dec. 27, 1833 and with the exception of a brief period in his early manhood, when he conducted a commission business in Chicago, has lived here ever since.

In 1887 he bought The Record, then a comparatively feeble journal and brought it to its present standard of excellence.

Financial misfortune overtook Mr. Singerly during the last few months of his life when on Dec. 23rd, last, the Chestnut Street National Bank and Trust company were compelled to close their doors. Messrs. Earle and Cook were made assignees of the trust company and managers of a plan looking to the liquidation of the affairs of both institutions. Mr. Singerly promptly turned over to them every personal asset he possessed, including his interest in The Record. Since then a receiver has been appointed for the bank and the affairs of it and the trust company are in process of settlement.

## Raided the Gamblers.

Toledo, O., Feb. 28.—The police raided the gamblers here from all quarters Saturday night. Wagonloads of paraphernalia were carted to the police station. All sections of the city were included in the raid. The men had plenty of money and baled themselves out.

## Activity at League Island.

Philadelphia, Feb. 28.—League Island navyyard swarmed with visitors yesterday in consequence of the report from Washington that the cruisers Columbia and Minneapolis, the doubleturreted monitor Miantonomah and the ram Katahdin had been ordered to go into commission with dispatch.

None of the naval officials at the yard would say anything relating to the future movements of the vessels, but from workmen it was learned that the commission orders had been issued. This was borne out by the fact that all day a large force of men in the construction and repair departments were actively at work on the Miantonomah and Katahdin.

Everything is shipshape on the Minneapolis and Columbia and, beyond filling up their complement of officers and men and taking on coal and provisions, nothing remains to be done. This will consume about five days at the most and then both vessels will be ready for active service. The enlistment of men continues.

## "Our Duty as Citizens."

Washington, Feb. 28.—President McKinley attended services yesterday at the Metropolitan M. E. church. Rev. Hugh Johnston, the pastor, preached a sermon in which reference was made to the Maine disaster. The president's course in the matter was commended.

"Our duty as citizens, as patriots, as Christians is to stand by the president, who stands at the helm of the ship of state, cool headed, clear of eye, strong handed and warm hearted; to stand by our government rather than by any intemperate speech or action to stir up the worst passions of our nature."

## Lee Denies the Report.

Tampa, Fla., Feb. 28.—Captain Hanlon of the Plant steamship Mascotte which arrived here last night from Havana, was granted an audience Saturday by General Lee and took breakfast with him at Hotel Inglaterra.

To him General Lee positively denied the reports that he had advised Americans to leave Havana.

Dr. Pierce's Golden Medical Discovery has been found wonderfully efficacious in the treatment of skin diseases—eczema, tetter, eczypelas, salt-rheum—from common pimples or blotches to the worst case of scabies.

## STILL IN IGNORANCE

Long Has No Evidence as to Cause of the Maine Disaster.

## NO MINE MARKED ON THE MAP.

The Court of Inquiry Taking Testimony at Key West—Sagasta Scouts the Idea of Arbitration in Cuban Affairs.

Activity at League Island Navy Yard—President's Pastor.

Washington, Feb. 28.—The state department received nothing from Consul General Lee yesterday and the only dispatch of consequence reaching that department was from Minister Rockhill at Athens, briefly stating that an attempt had been made on the life of King George, but without serious results. Five shots were fired by the would-be assassins, none of them taking effect.

Secretary Long stated that the department was today in possession of no more information on the cause of the disaster than it was immediately after the occurrence, and that no evidence had been received up to the present time showing that the disaster was caused by design.

## No Mine Marked on the Map.

At the suggestion of Secretary Long, Assistant Secretary Roosevelt of the navy department gave out the following statement in regard to the published map with the mines in Havana harbor purporting to be marked on it:

"As soon as the map was brought to my attention, I sent to Mr. John Russell Young, of the congressional library, and got the original. It was simply one of the innumerable maps of Havana harbor. There is not the slightest sign of a mine marked anywhere on it. As a matter of fact, I am informed that this map is one which has been used in giving lectures at the Columbian university."

In answer to the question as to what was the meaning of the movement of guns and munitions, Mr. Roosevelt said: "It merely serves to show that the department does not believe that there will be any trouble, but neither does it intend to be caught unprepared if there should be trouble."

## AT KEY WEST.

Board of Inquiry Begins Its Session—Important Witnesses.

Key West, Feb. 28.—The lighthouse tender Mangrove, bearing the members of the court of inquiry, arrived from Havana yesterday. The court resumed its sessions in the United States district court in the federal building at 10 o'clock this morning and will probably return to Havana on Wednesday.

The most important witness to be examined here is Lieutenant Blandin, the officer of the deck when the explosion on the Maine occurred. The testimony of the other survivors will take only a short time.

Rear Admiral Sicard, who has had frequent conferences with Captain Sampson and other members of the court of inquiry at the hotel, says: "I think they ought to get away on Wednesday. As yet there is nothing that can be said about their work."

In reply to a question as to the rumored removal of the warships to Cuba, Admiral Sicard said: "The fleet is not moving, and I know nothing about it going to Cuba. Still, you know, I have steam up and could go anywhere if ordered."

He was asked if anything had happened to justify the statement that the situation was more serious than it had been, and he replied: "They know at Washington about that. Just how strained our relations are with Spain I am unable to say."

## Activity at League Island.

Philadelphia, Feb. 28.—League Island navyyard swarmed with visitors yesterday in consequence of the report from Washington that the cruisers Columbia and Minneapolis, the doubleturreted monitor Miantonomah and the ram Katahdin had been ordered to go into commission with dispatch.

None of the naval officials at the yard would say anything relating to the future movements of the vessels, but from workmen it was learned that the commission orders had been issued. This will consume about five days at the most and then both vessels will be ready for active service. The enlistment of men continues.

## "Our Duty as Citizens."

Washington, Feb. 28.—President McKinley attended services yesterday at the Metropolitan M. E. church. Rev. Hugh Johnston, the pastor, preached a sermon in which reference was made to the Maine disaster. The president's course in the matter was commended.

"Our duty as citizens, as patriots, as Christians is to stand by the president, who stands at the helm of the ship of state, cool headed, clear of eye, strong handed and warm hearted; to stand by our government rather than by any intemperate speech or action to stir up the worst passions of our nature."

## Lee Denies the Report.

Tampa, Fla., Feb. 28.—Captain Hanlon of the Plant steamship Mascotte which arrived here last night from Havana, was granted an audience Saturday by General Lee and took breakfast with him at Hotel Inglaterra.

To him General Lee positively denied the reports that he had advised Americans to leave Havana.

## SCOUTS ARBITRATION.

Sagasta Says No One Would Dare Propose Such an Absurdity.

Madrid, Feb. 28.—Senor Sagasta, commenting upon an alleged interview with Prince Bismarck, in which the latter is represented as suggesting that the Cuban trouble should be submitted to the powers for arbitration, expressed his astonishment that such an idea could emanate from Prince Bismarck and declared emphatically that "nothing but ignorance of the question could inspire the notion that Spain would suffer foreign intrusion or submit to arbitration in her indisputable rights of sovereignty."

"Nobody," said the Spanish premier, "would dare propose such an absurdity, and no Spanish government would listen to or dream of such a proposal."

The cardinal archbishop of Valladolid has published a pastoral letter blaming America for the prolongation of the Cuban war. His eminence says: "The hypocritical friendship of the United States fosters the rebellion and wastes Spain's resources in order the better to attack her when weakened."

He exhorts all true Spaniards to "unite in defending the rights and honor of the nation." The letter has caused widespread comment.

A former captain general of Cuba (presumably Marshal Martinez Campos), interviewed by a representative of Correspondencia Militar, is reported as saying:

"I never entertained a doubt that if the rebellion were not suppressed before 1898, war with the United States would become an accomplished fact. Unhappily my prophecy will be fulfilled."

"I have the consolation of having done all in my power to avert it, and therefore, I do not regret the blame which has been heaped upon me. All that is now possible is that we should all unite to meet the danger that threatens the country."

## Order Ready for Sea.

Seattle, Wash., Feb. 28.—On the way down from Juneau, the Topeka spoke the Corona and brings word from Captain Goodall that she can be raised. Divers found no large holes. The leakage had been stopped and the water pumped out, everything being in readiness, when the Topeka left, to save her.

Omaha, Feb. 28.—The jury in the case of the state against the bondsmen of ex-State Treasurer Bartley returned a verdict for the defense. The amount sued for was \$555,000. Blown to Fragments—Bigamist Has Pleaded Guilty.

Indianapolis, Feb. 28.—Governor Mount and Attorney General Ketcham had a long talk over the telephone yesterday regarding the Hughes lynching trial at Cross Plains. Mr. Ketcham informed the governor of the defense set up by Hughes' attorney. He told the governor that he believed he would succeed in having the defendant bound over to the grand jury. The defense is endeavoring to break young Kelley's testimony by proving him a notorious liar and that he was prejudiced against both Hughes and McCoy. It is said the former had Kelley flogged while he was an inmate of the infirmary. William Baggott testified that he saw the lynching.

## IN A FODDER SHOCK.

Dead Body of a Man Discovered Near Portland.

Portland, Ind., Feb. 28.—While Isaac Garringer, a farmhand, was hauling in corn fodder Saturday, he took down a shock and found a dead body. The entire face had been eaten away, and the ankles, legs and wrists lacerated by the rats. The body had evidently been there for many days and was frozen stiff. It was brought here late Saturday and carefully examined by Coroner Garber. The body was that of a man five feet 10 inches high, and was very well dressed. A number of small trinkets were in the pockets, also a receipt given by J. L. Saperston, a Buffalo tailor, to J. H. Clark. No signs of foul play are evident.

He claims that a considerable part of northern Tipton county is embraced in a tract of land never ceded to the government by the Indians, and was comparing maps and documents in his possession with the papers on file. He will investigate in adjoining counties and then go to Washington to present his claim to the government.

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glass paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printmaking paper, and tone in the same kind of gold and silver plating baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet glass cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

Fifty-three years ago last Saturday Mrs. Mary Klein, who resides on Brown street, first opened her eyes to this country, and her friends and neighbors to the number of about seventy-five went to her home Saturday night to remind her of the fact. She received several nice presents among them was a nice set of china-ware. Refreshments in abundance were served and the crowd was entertained with choice music, songs and witticisms until a late hour. The most interesting part of the music was a young lady whistler. She bids fair to become famous as a whistler. At a late hour the crowd dispersed all feeling happy and wishing Mrs. Klein many more such happy occasions.

April Conference for Ministers and Christian Workers.

The Third Annual Conference for Ministers and Christian Workers will hold its sessions in Chicago, at the Bible Institute, throughout the month of April.

In the past those in attendance were from as far west as the Dakotas and Texas, and as far east as New Brunswick. It is expected that all sections of the Union will be represented this year.

It is interesting to note how the conference appeals to Christian interest everywhere, and how widespread the interest is.

The indications are that the attendance will be much larger this year than ever before, and great as the past blessings have been, even greater ones are expected from our Heavenly Father and His Son Jesus Christ and the Holy Spirit. Anyone contemplating attendance can write Moody or R. A. Torrey, 80 Institute Place, Chicago.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain, nerve, courage, endurance, energy, increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial.

At druggist. Trial bottle 10 cents.

ONCE THEY WERE MEDIUMS.

Now They Expel Their Sins by Tossing Balls of Blue Fire.

Close by the Northwestern tracks at Leavitt street is the home of the "juggling sisters." They were twin prestidigitators in their days of life, so runs the tradition, and now they toss balls of blue fire about as the juggler does eggs, cannon balls and the like. Their pet amusement is to stand on their heads and toss the balls as if they were standing aloft. The force of gravity seems to be reversed for their benefit, for they "toss" the balls of fire down, and the little flames "fall" up. All this is set down just as James MacCourtney, the oldest settler in the neighborhood, tells it. He said the other day:

"Them broad windys over there on the north side of the old building is the place where the sisters comes to show themselves. The year of the World's fair I counted up their performances, as they come every 56 days. The reason for that is something I could never guess, but some smart young chap here figured out that it was always in the dark of the moon. I've noticed since that there never was no moonlight when they got up there in the windys."

"What's the cause of their haunting the old place? Why, sir, the story's so old there can't no truth nor lie be made out on it. There's no man in these diggin's longer'n I be, an' I ken the story only by hearsay, so to speak. I heard it from my granddaddy, an' he said he heard it when he was a young man comin' here. That mus' 'a' ben in the thirties. Onnyways he said that the two sisters was persidigitators. It seems like they give a performance in the house, which was new then in course, an' the pair of them agreed ter be locked up in a box that was to be sealed an' fastened, an' then they was to get out without break in the seals. Well, they was locked up, but they couldn't get out, an' purty soon they foun' themselves so short of breath they couldn't holler loud enough to be heard. In course they was in a room away from the other people, so's the common folk couldn't see how the trick was turned. When they couldn't holler, they tried rappin, an' the others only thought they was a workin out of the box an' so didn't pay attention. After an hour or so the other peoples got nervous an' went in an' opened the box, an' there was the two sisters, cold dead. They buried 'em together in the box in the yard back of the house, an' that's why they juggle the fire balls upside down like."—Chicago Chronicle.

THEY ARE FRIENDS.

Helen—I wonder why Kate doesn't mind her own business.

Mattie—She hasn't any.

Helen—Business?

Mattie—No; mind.—Chicago News.

Took a Severe Cold After the Big Fire.

After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help; the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. ## DIPLOMATIC AUCTIONS.

Eric-a-brac Fargates Fagerly Bought at the Shrine of the Red Flag.

There is a graceful custom among foreign diplomats at the capital that we may as well trench upon. I refer to the auction sale which frequently befalls on the occasion of the recall of one of our alien ambassadors or ministers.

For two weeks before their excellencies decamp the local papers revel in a long and lurid "ad." recounting the recall of the ambassador or minister and declaring how on a certain day all people so minded are invited to appear and contest at public vendue for a dazzling list of plunder in said "ad." set forth.

Prime among the properties for sale you will notice wines and many a thing besides that are as articles of commerce highly tariffed. But in these cases courtesy has held the tariff at bay. All of a legation's wines and cigars and furniture—in fact, everything of a persona sort that a legation causes to be brought to America—is passed scot free at our customs. One will readily discern that a ripe profit might be made to roll pleasantly up at one of these untariffed legation sales. Our own tradespeople must, however, pay the fiddler in each notable instance.

At these sales snobdom turns stoutly out. The bidding is hot and fast and high. There is nothing so lusted for by a certain sort of American, cringingly numerous hereabout, as a wine which has been justified by an ambassador's taste, or a piece of furniture or trice-a-brac which has been soiled by noble and titled contact. And, therefore, these legation auctions furnish the most heated bid combats. And many a fool is fleeced.

It is also to be remarked that these sales string out in endless fashion, day following day, as fools flock to be lured. The stock, whether of wine or furniture or cast off noble garments, never runs low. The widow's store of oil showed no better staying powers. As long as custom hangs about the chambers about, the red flag flutters and the stock of goods to be disposed of flows by with current unabated.

For, mark you, rather than disappoint or send any full hearted alien chaser away from this sale with aching heart and empty hands the auctioneer each night moves in a new stock to replace the disappearances of the day before. Each morning the legation rooms are as unstripped, the cabinets as full of trice-a-brac, the bins as replete with rare old wines as at the beginning.

Thus it runs forward until no more sheep appear to be shorn and even the toddlers have enough. Then the flag comes down and the legation sale is at an end.—New York Journal.

## FOR AN OCEAN VOYAGE.

Take Only Half the Clothes You Think You Will Need.

"Take only half the clothing that you think you will need for an ocean voyage and do not attempt to have a small trunk in your stateroom," writes Emma M. Hooper in The Ladies' Home Journal. "Have in your largest shawl strap a traveling rug, heavy wrap—a golf cape is excellent—sun umbrella, rubbers, small cushion to tie on the back of your deck chair, a warm dress of plain design, and a flannel wrapper to use as a nightgown. Wear a chamois pocket well secured with a tape about the waist for your letter of credit, jewelry, money, etc."

"In a large traveling bag place a change of underwear, hose, bedroom slippers and needed toilet articles, with which include a small hot water bag, bottle of salts, vaseline, box of cathartic pills and bottle of camphor. Do not forget a comfortable cloth steamer cap and a gauze veil if you are afraid of a little sunburn. Wear a jacket suit of mixed cheviot or serge and a silk waist on board. After starting put on the older gown and lounge in it until you land, when it can be given to a stewardess. Some travelers try to dress for dinner and carry a steamer trunk filled with silk waists and fancy neckwear, but for an eight day journey this is poor taste and a lot of trouble. Others have the small trunk in the cabin, and before landing pack the things in it that are to be used only on the return voyage, and send it to the ship company's office until their return. It must be remembered that 33 pounds of baggage is the average weight allowed free on the continent. Warm wraps and woolen underwear are necessary at all seasons going across the Atlantic."

## ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the Republican and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness of this offer.

Chamberlain's Cough Remedy Always Proves Effectual.

There are no better medicines on the market than Chamberlain's. We have used the Cough Remedy when all others failed, and in every instance it proved effectual. Almost daily we hear the virtues of Chamberlain's remedies extolled by those who have used them. This is not an empty puff, paid for at so much a line, but is voluntarily given in good faith, in the hope that suffering humanity may try these remedies and, like the writer, be benefited.

## THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable," "is simply invaluable," "is a generous library in itself," "is a historical cyclopedia of the world," "the best means of aid for a busy man," "the best periodical of the kind we have ever had," "a triumph of editorial genius," "the world under a field-glass," etc., etc.
